## Food from A1

families with digital and printed nutrition education resources to promote long-term, sustainable changes in dietary behavior.

"At Amerigroup, we understand the vital role that healthy food can play in promoting the overall health and well-being of the communities we support and it is especially important for local youth," said Vince Ancona, Amerigroup Maryland Medicaid Plan President. "We know that the food access gap for low-income Maryland residents has widened during the pandemic and our goal in partnering with Brighter Bites is to ensure that residents can obtain the food and resources they need to help them during this health crisis."

Brighter Bites is a nonprofit that creates communities of health through fresh food with the goal of changing behavior among children and their families to prevent obesity and achieve long-term health. Brighter Bites is an evidence-based, multi-component elementary school, preschool, and summer camp program that utilizes reliable access to fruits and vegetables, nutrition education, and consistent exposure to recipes and messages that feature fresh food. Since 2012, Brighter Bites has provided nearly 30 million pounds of produce and millions of nutrition education materials to more than 350,000 individuals (including teachers) in Houston, Dallas, Austin, New York City, the Washington, D.C. Metropolitan area, and Southwest Florida. To learn more about Brighter Bites visit [www.brighterbites.org](http://www.brighterbites.org).

Amerigroup Maryland has provided health care coverage since 1999. Statewide, we serve approximately 288,000 members in the Medicaid, Children's Health Insurance Program (CHIP), Temporary Assistance for Needy Families (TANF), and Supplemental Security Income (SSI) programs. Amerigroup Maryland is one of the state's largest Managed Care Organizations (MCO) and is one of the largest MCOs in Baltimore City and the counties of Baltimore, Montgomery, Prince George's and Anne Arundel. Employees share genuine pride in making a difference in the lives of people who might need a little extra help.

## Safety Seat from A5

is properly installed, it should not move more than one inch in any direction. Parents should use either the vehicle's seat belt or LATCH system to secure the safety seat—but not both, unless approved by the vehicle and car seat manufacturers. If using a seat belt, make sure it is locked to hold the seat snugly in place.

**Adjusting seat harnesses incorrectly.** Safety seat harnesses should always be snug and lie flat without twists. Harnesses should be at or below the child's shoulders when rear-facing and at or above the shoulders when forward-facing in order to hold the child's body upright and against the seat. The chest clip should be positioned at armpit level.

**Gadgetry:** If it didn't come with the seat (or wasn't purchased from the manufacturer to use with the seat), it wasn't crash-tested with the seat. It therefore cannot be guaranteed to be safe and should not be used. This includes strap covers, mirrors and toys.

**Not replacing seats after a crash or using one without knowing its history:** Check your manual to see if the seat should be replaced even after a minor fender-bender and even if no child was in the seat at the time. Also, never buy a used car seat, and never accept a free used one unless you're sure that it's never been in a crash. Even if it looks OK, there may be damages that aren't visible. It is safer to buy a cheap, new seat than a high-end used seat. All seats pass the same pass/fail crash tests.

Remember to register your car seat or booster seat with the seat manufacturer so you can be notified in the event of a recall. Parents and caregivers can view more information on car seat safety and locate a certified technician at [nhtsa.gov/carseat](http://nhtsa.gov/carseat). The Maryland Department of Health's Kids In Safety Seats (KISS) program is offering Video Car Seat Assistance. Registration is available at the department's website.
