**Centers Integral to Success of Healthcare**

By PRESS OFFICER  
Senator Cardin’s Office

Maryland has been on the leading edge of implementing the provisions of the Affordable Care Act.

Baltimore—Celebrating National Health Center Week, U.S. Senator Ben Cardin (D-MD) visited the Baltimore Medical Systems’ Highlandtown Healthy Living Center to tour the facility and view the new implementation of the Affordable Care Act (ACA) that will double the capacity and scope of Federally Qualified Health Centers (FQHCs) in Maryland and nationwide. As millions more Americans gain access to quality health care coverage thanks to the Affordable Care Act, Maryland health centers will provide essential primary and additional services in our communities.

“The Affordable Care Act is already providing stable and secure coverage for Maryland families and slowing the growth of health care costs to something that Americans can afford, with better value, options, and better choices,” Cardin said.

**Farmers’ Market to Double EBT Purchases**

By PRESS OFFICER  
Office of the Governor

SUITLAND, Md.—Eat Fresh Maryland is pleased to partner with the Prince George’s County Market on a “Maryland Market Money” program that doubles the value of federal nutrition benefits used to purchase local food. A new wireless electronic benefit transfer (EBT) machine allows the market to accept SNAP benefits (Supplemental Nutrition Assistance Program, or SNAP food stamps), which were previously not accepted.

The market will also welcome Farmers Market Nutrition Program (Women, Infants, & Children “WIC” or Seniors), and WIC Fruit and Vegetable Credit benefits.

AAA Tips For Spotting Flooded Or Water-Damaged Vehicles 9 Months After Superstorm

WASHINGTON, D.C. (August 11, 2013) — Nearly 800,000 customers across the Greater Washington area were hit by a head-on killer truck, causing local health centers in the area to heave the ringing of the school bell for the 2013-2014 academic year. Prince George’s County is an array of battle-hardened boys and girls will be filling nearly six-out-of-ten students (80,000 pupils or 64.5 percent) absurd in armada of 1,250 school buses each day. It signals the return of thousands of kids with all their first-day nerves, tears, squalls and acrobatics. So also keep your eyes peeled for them and for all those school safety patriots, bikers, yellow school buses, and a legitimate verity of legs, toed, eight-legged crossing guards on area roadways in local school zones. So, a night-time for any motorists to mind their safety and Ps and Qs and get back into the habit of watching for children on their way to and from school, of slowing down in school zones and residential neighborhoods, and by stop

An estimated 250,000 vehicles were damaged or flooded by the wrath of Hurricane Sandy, including 150,000 vehicles in New York, and 60,000 automobiles in New Jersey according to The National Insurance Crime Bureau (NICB). Moreover, thousands of vehicles in our neck of the woods were also damaged, scratched, or water-logged by the super-storm Sandy. The NICB explains: “That includes 5,500 vehicles in Maryland and 4,500 cars and trucks in Virginia. In the tip of that, the tally includes an esti

**Scheduling for March On Washington**

 Fifty years ago, Whitney M. Young Jr., president of the National Urban League worked alongside his fellow civil rights, social justice and labor movements to launch the March on Washington. The Urban League will again mobilize citizens to gather in Washington to support the March on Washington for Jobs and Freedom. The March will be held on August 28, 1963, the 50th anniversary of the historic March on Washington, and will be the largest nonviolent demonstration in U.S. history.

County Supplier Diversity Division Accepts Online Applications for County-based Certifications

LARGO, MD – The Prince George’s County Supplier Development Division (SDDD) announces that a new online application process to be certified with the County as a local, small, minority, and/or disadvantaged business is now available.

“With the large amount of opportunities that are coming to Prince George’s County, it is imperative for the County to be able to accept online applications for County-based certifications,” said Ronald L. Jones, Executive Director of the Prince George’s County Supplier Development & Diversity Division. “This new technology will help streamline the certification process and enable companies to be certified more efficiently.”

The County-based Certification process can take up to 90 days upon receipt of the online application. Companies who want to be certified with Prince George’s County as a County-based firm can apply online at www.princegeorgescountymd.gov/sddd. Under the Jobs First Act, SDDD began certifying companies as County-based firms January 1, 2013. The new bidding preferences and participation requirements for certified local, small minority, disadvantaged, veteran and disabled veterans-owned businesses went into effect July 1 of this year.

LARGO, MD – Prince George’s County Supplier Development Division (SDDD) Executive Director, Ms. Sharon Jackson was selected as one of the 23 “Influential Women in Business” in the Washington Area by MEGA Magazine.

“I am honored to be supporting Sharon Jackson. She has been a dedicated and respected professional in Supplier Diversity in the State of Maryland and within our great County,” said Prince George’s County Executive, Angela Alsobrooks.

“The County-based Certification program has been successful in the company of other distinguished and accomplished women from around the world at MEGA Magazine’s 12th Annual Influential Women In Business – Making a Difference” on Wednesday, October 2, 2013 from 11:00 a.m. to 2:00 p.m. The luncheon, with the theme: “Leading the Way,” at the Mayflower Hotel, located at 1127 Connecticut Avenue, NW, Washington, D.C. 20036.

With an expected 350 to be in attendance, the luncheon will provide an opportunity to network with local, national and regional government officials and corporate executives, international and Fortune 500 business owners, members of the media and political and community leaders. Industry representation will include manufacturing, import/export companies, IT, cyber security, telecommunications, construction, finance and investments, and education.

The Affordable Care Act has been America’s community health centers. The law provides $11 billion in funding over five years to build new community health centers and expand existing ones, effectively doubling their capacity to more than 40 million patients by 2015. By that date, it is estimated that community health centers will provide affordable health care to two-thirds of low-income Americans.

This year, Senator Cardin joined Secretary of Health and Human Services Kathleen Sebelius to announce new funds to help more uninsured Marylanders enroll in affordable health care insurance coverage made available by the Affordable Care Act.

"Prince Avalanche"

Why Banning Russia from the Olympics is a Terrible, Horrible, No Good, Very Bad Idea

There are few people in the sports world more driven by political correctness than Cyd Zeigler the former USOC CEO. The "War on Drugs," "War on Racism," "War on Sexuality," and now the "War on Rape," all led him to be a huge advocate for a ban on Russia from the Olympics.

But for the IOC, the real story is that Russia should be treated as a pariah state not only South Africa during the time of the Apartheid, excluded from most major international sporting events.

As he writes, "Think a Russian ban is crazy? There's more precedent for penalizing an entire country (United States Committee) banned South Africa from participating in the Olympics in 1976 and 1980. Russia has remained in force for 28 years, until 2017. Apart from the ban, Russia, as host, watches the games from the sidelines as 200 Russian nationals risks冰 in Sochi.

I disagree with this demand, even though I oppose with the most absolute hatred of the brutal crackdown on Russia's LGBT community.

I agree for three main reasons. First, and most obviously, such a move would do far more damage to the Russian athletes themselves, than to Vladimir Putin. If we are against a political regime, we should instead focus on the political regime itself.

Second is the critical question of who gets to initiate such a ban. Inside the apartheid South African cities of Zeigler, there was an actual organization called SANROC, or "South African National Olympic Committee" that called for their own country's exclusion. SANROC organizers like Dennis Brutus went to jail or were shot in the name of keeping South Africa out of the Olympics and other international sporting events. Black and brown athletes, even those that didn't have their own country to represent, still had to work within their own South Africa's teams. We haven't heard any such a demand from Russia's LGBT athletes or straight athlete allies. If we did, we'd pay attention.

This leads to the third fallacy in the "experts" argument. "Russia has a history of human rights abuses. "Fans" in the West go to see昭著 movies because they are killed abducts, torture, to mention a few of the convenient "human rights abuses" that the West is only interested in at sporting events. I mean it is as true as the fact that "the US has a history of human rights abuses."

The list goes on. This is about comparing and contrasting, and there are plenty of "human rights abuses" that the only countries allowed in the Olympics had sparked reactions on human rights, we'd be watching polar bear races near penguin habitats.

This answer in line with those that Zeigler espouses. "Fans" in the West go to see昭著 because "they are killed abducts, torture, to mention a few of the convenient "human rights abuses" that the West is only interested in at sporting events. I mean it is as true as the fact that "the US has a history of human rights abuses."

A question for the IOC, their corporate sponsors, or the good of our own government.
